

# Link-OS Multiplatform SDK

## Create Custom Applications

The robust Link-OS® Multiplatform Software Development Kit enables app creation on PCs, smart phones and tablets, supporting the most popular operating systems. The Link-OS SDK makes creating powerful apps simple and straightforward.

This SDK lets you save considerable time as you develop your own solutions.

- Expanded demos, extensive documentation, and template printing.
- Develop apps for PCs, smart phones and tablets using Windows®, Linux, Android™, iOS™.
- Develop apps leveraging the Cloud Connect feature using our Webservices demo code.
- Supports Java, Objective C, VB, C# and .NET.
- Includes expanded Xamarin Cross-platform development toolset for iOS and Android.

## Print DNA - Your Printer's Built in Advantage

Durable printers are essential, but it's the software inside that keeps your printers in action and working hassle-free. That's why we engineered Zebra Print DNA. It's a suite of software applications and capabilities built into Zebra printers that leverages everything we've learned from thousands of use cases to make sure your printers perform at their highest potential.

With Zebra Print DNA tools and applications, you will stay a step ahead utilizing remote management tools, heightened security and ongoing updates. Ensuring easy integration and interoperability, Print DNA enables your printers to work at optimized performance over their entire lifecycle, even as your business needs evolve.
